Q58 all rejects \* (co-mingled tonnages, net of rejects, from Q10, Q12, Q16, Q17, Q33, Q34)/(all co-mingled tonnages, net of rejects, from Q10, Q11, Q12, Q16,

Q17, Q33, Q34)

4.MRF rejects in Q58 from household sources

## BVPI 82a – Percentage of household waste arisings which have been sent by the Authority for recycling

## What the indicator measures: Total tonnage of household waste sent for recycling Numerator x 100 (excludes wastes sent for composting which are covered by 82b) Denominator Total tonnage of household waste arisings How the numerator and denominator are calculated using WasteDataFlow is summarised below setting out the questions data is drawn from. Numerator Rubble is excluded because it is not household 1.Sum of tonnages sent for recycling (collected -Compostable wastes excluded as they are covered in rejected) from Q10, Q12, Q16, Q17, Q33 and Q34, for all material types excluding rubble, green waste and other compostable waste. Rejects are excluded. Reuse is excluded. Exclude household waste collected through other 2.Q18; household recycling tonnages from skips and means for composting (82b) other methods Recycling rejects from Q19 need to be excluded. Ratio of household waste sent for recycling but rejected calculated as a proportion of all recycling but excluding rubble, green and other compostable waste categories 3.A proportion of rejects in Q19 attributable to amount (Total from steps 1 and 2)/(total from steps 1 and 2 collected from household source plus Q11 excl. rubble, green, other compostables and rejects, plus Q18 total minus household recycling tonnage i.e. non-household recycling tonnage) \*Q19 rejects for household dry recycling categories i.e. excl. rubble, green and other compostable wastes. Deduct MRF rejects that are due to co-mingled tonnages collected from household sources. Some MRF rejects may be from non-household sources & need to be excluded:

## Denominator

1. Total tonnage of household waste collected for recycling from Q10, Q12, Q16, Q17, Q18 (household waste column), Q33 and Q34.

Excludes rubble and re-use.

Material rejected is not deducted as this is part of the total household waste arisings.

2. Total tonnage of residual household waste from Q23

All collected household waste, CA site household, separately collected healthcare waste & gully emptyings.
