

## WasteDataFlow Question 19 and 19a alternate view

Questions 19 and 19a ask the authority for data on which materials are sent to which reprocessors.

This can be a lengthy question given the number of materials and the number of facilities. To make the question more manageable the materials list can be managed now by the user (see expanded material list guidance).

Also, some authorities reported that they have the original data in a list ordered by facility and others in a list ordered by material.

There are therefore two ways to order the data-entry screen for question 19 and 19a. One view allows the user to choose a facility and then shows the list of materials, the other view shows the list of materials and allows the user to allocate multiple facilities. The view can be changed at any time, even during data-entry.

The view is changed simple by clicking on the button labelled "Alt View".

### Facility View

The screenshot shows the 'Facility View' for Question 19. At the top, there are dropdown menus for 'Enter Data For' (set to 'Sep 08') and 'Question' (set to 'Q019: Recycling destination'). Below this is the question text: 'Q019: What is the final destination of your materials sent for recycling?'. There are buttons for 'Ques List', 'Next', 'Save', and 'Cancel'. A 'Load comments only from:' field with a 'GO' button is present. The main section is titled 'Recycling Destination' and shows a dropdown menu with '7932 - Other/Exempt' selected. Below this, there are three expandable material categories: 'Other electrical goods', 'Green glass', and 'Other materials'. Each category has a 'Quantity sent for recycling' field and two 'Final destination of contaminants' dropdown menus. A 'Show All Materials' button is located at the bottom right of the material list.

### Material View

The screenshot shows the 'Material View' for Question 19. At the top, there are dropdown menus for 'Enter Data For' (set to 'Sep 08') and 'Question' (set to 'Q019: Recycling destination'). Below this is the question text: 'Q019: What is the final destination of your materials sent for recycling?'. There are buttons for 'Ques List', 'Next', 'Save', and 'Cancel'. A 'Load comments only from:' field with a 'GO' button is present. The main section is titled 'Recycling Destinations' and shows a dropdown menu with '1' selected. Below this, there is a summary table for 'Green glass' with columns for 'Recycling Destination', 'Quantity sent for recycling', and 'Final destination of contaminants'. A 'Show My Materials' button is located at the bottom right of the summary table. Below the summary table, there is a detailed data entry form for 'Green glass' with a 'Recycling Destination' dropdown menu set to '7932 - Other/Exempt', a 'Quantity sent for recycling' field with the value '100', and two 'Final destination of contaminants' dropdown menus.
